

UniTrade

UniTrade is a business oriented program that connects business providers in our church community to users of their services. In the process, the "trader" will give a sales discount for services or products to the user. They will also tithe a portion of the transaction to our church. The service providers will get promotion throughout our Unity circle. The purpose of UniTrade is to raise funds for our church, build relationships, and help promote businesses within our community. UniTrade is a win-win transaction for all participants.

Here is how it works. Members in our church community agree to provide their business goods or services to others with a specific discount. The user of the service gets a savings on their purchase and the trader then tithes a portion of the transaction to the church. The nature of the discount and the tithe are at the discretion of the trader. The discount may be a coupon or a percentage off the regular price.
